Location: Plano, TX

 Tweet This • Search All PPP Data

Worldventures Services, LLC is a limited liability company (LLC) located at 5100 Tennyson Pkwy in Plano, Texas that received a Coronavirus-related PPP loan from the SBA of **\$4,150,886.00** in April, 2020.

PPP Loan Information

Loan #5872937100

Loan Size:

\$4.15M

Jobs Retained:

181

Loan Approved:

2020-04-14

Loan Status:

Lender:

Ongoing Loan

Titan Bank, National Association

 **Likely Employment Reduction³**

Worldventures Services, LLC in Plano, TX received a Paycheck Protection Loan of \$4.15M through Titan Bank, National Association, which was approved in April, 2020.

This loan has been disbursed by the lender and has not yet been fully repaid or forgiven. The exact status of ongoing loans is not released by the SBA.

The size of company's PPP loan indicates that the number of employees on payroll during the eligibility calculation period (typically 2019) was higher than the 181 jobs reported as retained on the PPP application³. This could be caused by a reduction in employment since 2019, due to Coronavirus or other factors.

The minimum number of employees this company must have had in 2019 to qualify for the loan range received is **199**. This estimation is accurate if all employees were paid at or over the \$100k PPP salary eligibility cap.

Payroll Estimates Based On SBA PPP Loan Eligibility Formula

Understanding The SBA Formula For Determining PPP Loan Eligibility

The simplest way to describe the standard PPP calculation is that businesses are eligible to receive a maximum PPP loan of up to **2.5 x average 2019 monthly payroll costs**. However, specific calculation methods vary based on entity type and have numerous qualifications.

Seacret Direct, LLC-Exhibit T

Page 1 of 21

Understanding Payroll Estimates Based On PPP Amount

Please note that payroll estimations are based on a simplified PPP eligibility formula and do not account for factors such as salaries over \$100k and other PPP eligibility components.

[Read More](#)

Based on the standard PPP eligibility formula, it may be possible to estimate the payroll expenses represented by a company on their PPP application (see details above). In order to qualify for the PPP loan amount received, Worldventures Services, LLC's 2019 payroll expenses are estimated to be at least **\$19.92M** (not accounting for salary amounts > \$100k).

Because the 181 jobs reported are not enough to account for the loan range received, per-employee payrolls cannot be estimated.

Reported PPP Proceed Usage:

On the PPP application, Worldventures Services, LLC reported intending to use the proceeds of their PPP loan for the following expenses:

- Payroll: \$4,150,886

Because the loan received by Worldventures Services, LLC is at least \$2M dollars, it is subject to a full review by the SBA to ensure eligibility and compliance with PPP program requirements.

Footnotes & Information

1. *Estimations for informational purposes only. Payroll and salary estimates assume the borrower used the standard PPP calculation of 2.5 x average 2019 monthly payroll costs to determine PPP loan eligibility. Calculation methods vary based on entity type. Please read the latest official SBA PPP calculation rules for a full explanation of PPP loan amount calculation methods.*

2. *If a company's reported number of employees divided by the maximum PPP range amount per the SBA is greater than \$100,000, the estimated maximum PPP loan received by the company can be adjusted down to assume no more than \$100,000 yearly salary per employee was used in the PPP application. While employees at the company may earn more, \$100k / employee is the maximum amount that can be used in PPP eligibility calculations.*

3. *Since the PPP eligibility will include a maximum of \$100k in salary expenses for each employee in the qualifying period, the minimum number of employees required to be eligible for a given PPP loan amount can be calculated by the following equation: ((LOAN AMOUNT/2.5 months) * 12 months) / 100k max salary. If a company reports fewer employees than this amount on their PPP application, it is likely because they had more employees on payroll.*

Footnotes & Information

1. *Estimations for informational purposes only. Payroll and salary estimates assume the borrower used the standard PPP calculation of 2.5 x average 2019 monthly payroll costs to determine PPP loan eligibility. Calculation methods vary based on entity type. Please read the latest official SBA PPP calculation rules for a full explanation of PPP loan amount calculation methods.*

2. *If a company's reported number of employees divided by the maximum PPP range amount per the SBA is greater than \$100,000, the estimated maximum PPP loan received by the company can be adjusted down to assume no more than \$100,000 yearly salary per employee was used in the PPP application. While employees at the company may earn more, \$100k / employee is the maximum amount that can be used in PPP eligibility calculations.*
